

## **eWiSACWIS Release 2.1.1 Notes**

### **Placements**

9207

In Home Service Ending Approval

In Home Services can now be saved without the need for selecting a discharge reason when ending the service.

### **Service Intakes**

9124

Modified IA

The modified initial assessment can be created and maintained from the services intake module.

9096

Service Intake Basic Tab

The appropriate screening supervisor name will prefill on the services intake window and template.

### **Plans**

9101

Case Plan

Goals on the family assessment will now prefill into the case plan correctly.

### **Automated Message**

9140

Automated Message for TFH and FH

Automated messages (email sent when a new placement is created within an episode) will only be sent when placements are made in foster homes and treatment foster homes. RCCs, Group Homes and Shelter Care facilities will be excluded from this automated message processing.
